Figure Skating - History

Humans have been skating for thousands of years. The first skates were made from animal bones and attached to the feet with leather straps. People used skates as a way of crossing frozen lakes and rivers in the winter. In the 1850s, figure skating started when skaters started trying various spins and jumps on ice. The first World Figure Skating Championships for men were held in 1896 in Russia. The first World Figure Skating Championships for women were held in Switzerland in 1906.

SKATER OF THE MONTH – Isabella Larson

Age: 7 1/2

Years in skating: just started lessons but started skating at 3

Other activities enjoy: wearing pretty dresses

Favorite thing about skating: skating backward faster
